Cocoa Milk Board & Batt Upper Walls
Napa Valley Stone Lower Walls
Granite Rock Cedar Shake Roof

DOUBLE CASCADIAN
Oatmeal Buff Horizontal Lap Walls
and Cedar Shake Roof

VAULT

- Installed below ground level with vault dimensions that match the perimeter of the building to provide a stable structure that supports the full weight of the building.
- Each holds up to 1,000 gallons of waste (approximately 15,000 uses).
- Sloped so that waste will drain to the clean out end.
- Lined with a black polyethylene liner that is cast into the side walls of the concrete vault using dovetail embeds.

SWEET SMELLING TECHNOLOGY

- Designed and placed to ensure an unobstructed airflow over the top of the vent stack for passive ventilation.
- The location of the wall vent and orientation of the building takes advantage of the unobstructed airflow.
- The positive continual air flow carries the vault air out through the vent pipe keeping the building odor-free.

- Meets UFAS, ADA and California Title 24 requirements
- Vandal resistant building and toilet components
- 4" thick steel reinforced concrete walls
- 5" thick steel reinforced concrete roof and floors
- Quick installation and hookup at the job site
- Will not rot, rust or burn
- Easily cleaned with a brush and warm soapy water
- Available in 28 different colors
- Custom textures and colors also available

**ENGINEERED TO
WITHSTAND SNOW,
WIND, WATER AND
ZONE-4 SEISMIC LOADS**
