

MULTIPURPOSE BUILDINGS

SIMPLE TO INSTALL

CXT® buildings require minimal site preparation and can typically be in use on the day of installation.

READY TO USE

Our buildings are prefabricated and delivered complete and ready to use, including plumbing and electrical where applicable.

EASY TO MAINTAIN

Our interiors are designed to resist abusive wear and can be cleaned quickly with warm soapy water and a brush.

Engineered to withstand snow, wind, flood, and zone-4 seismic loads.

UTILITIES

- Pre-wired, pre-plumbed, and tested before shipping to meet local code requirements.
- Concealed within the chase/storage area for easy hook up and maintenance, and to reduce vandalism.

HOOK UP AND INSTALLATION

- Minimal site work is required.
- Water, sewage and electrical utility lines are stubbed up through the prepared base material to match up with the utility blockout within the floor of the chase area.
- Hookup of the three utility lines can be completed in a matter of hours.
